ATTEMPT TO ABDUCT A FEMALE. - About 11; o'clock on Monday night a party consisting of two young men and a girl of about 16 years of age went on board one of be Division-av. ferry-boats for the purpose of crossing to New-York. One of the deck-hands observed the: and suspected something wrong. An opportunity presenting itself, he questioned the girl and learned that the two young men were strangers to her; that he recided in Boerum-st., in the Sixteenth Ward of Brecklyn, and had come down that evening in the tage from East New-York. The young men were in the stage and entered into conversation with and inally induced her to go down to the ferry to get supper. While in the saloon they prevailed upon her to accompany them to Barnum's Museum, to see the Baby Show, for which purpose she was now with them. The deck hand advised her to go home, and as she was kaving the ferry house for that purpose, the two men cauce out and carried her by force upon the boat. An officer was then called, who conducted the girl home. Two other officers coming up soon after, arrested the two men and conveyed them to the Fifth District Station-House, but as the girl was not present to prefer a complaint upon which they could be locked up, the parties were discharged.

THEER-CARD MONTE.-A well-known citizen of the Thirteenth Ward of Brooklyn, who drives a fast horse and is a recent addition to the sporting circles, went to the great race on the Union Course on Monday afternoon. While there he was "done" out of \$27 and a gold watch and chain valued at \$200 by the sharpers at a game of three-card monte. He is now considered a member in good standing of the sporting

THE BALL SWINDLE.—Hers Wheeler, the person charged by Mr. Valentine of Promington, New-Jersey, with deflecting him out of \$150 by the patent hall swindle at Greenwood on the 4th of May last, was personally fully committed by Jackee Smith to a wait the action of the Grand Jury. Mr. Valentine represented himself as Ararish Stout when he made the complaint in New-York.

THE MARTYRS OF THE PRISON-SHIPS .- A Society has recently been organized for the purpose of accomplishing the orrection of the proposed Monument to the Martyrs of the Prison-ples, and permanent officers have been chosen. A meeting to advance the object is to be held at the Atheneum on the 18th of

REMOVAL OF OFFICES.—The Committee on Lands and Fisces of the Common Council reported at the last meeting in favor of charging the location of various offices in consequence of wont of rocm in the City Hall. Thus they recommended the sensoral of the City Clerk's Office to the room now occupied by Judge Moore and siving the Clerk's Office to the Callector of Taxes, a room for Judge Moore's Court to be fitted up in the County July Judge Moore's Court to be fitted up in the County July Judge Moore's Count to the fitted up in the Hall to the Fourth District Station-House on Myrtle av. This evening the ladies of the First Reformed Dutch Church will hold their Festival at the Commercial Buildings. Many from New York attend these festivals.

VIOLATIONS OF THE SUNDAY LAW.-Yesterday five eigar dealers and two barbers were brought before Recorder Cutter charged with violating the State laws by keeping their places of business open on the

A young man named Henry Williams was placed upon trial, charged with counterfeiting a number of pieces of coin in the similitude of American quarter dollars. He and another, it was said, were seen to make them where they lodged, at No. 12 Roosevelt-st., and information given to police officers, who repaired to the house and arrested them, finding a quantity of the false coin (which, by the way, is a werethed imitation, hardly capable of deceiving any person) in the pockets of prisoner. He was found Guilty.

BROOKLYN COURT OF OYER AND TERMINER—JUNE
12—Refore Judges ROCKWELL, MOORE and HAMMOND.
The Grand Jury came into court yesterday morning
and submitted the following questions: First—Are the Grand
Jury, in deciding cases submitted to them, judges of the law as
well as of the facts; and Secondly, are they bound by the opinlen of the Court is expressed in the charge or the advice of
the District-Attency in relation to questions of law arising upon
cases before them.

the District-Atterney in relation to questions of law arising upon more before them.

In snewer to the first question Judge Rockwell stated that the Jury were bound to take the law precisely as laid down by the Court. Their plain, simple day, we to decide question of fact and to take the law as the Court gave is to them.

In regard to the second question the Court mated that the District-Attorney was their legal adviser and they could call on him whenever they required his slaid; but should any material difference arise between his views and those expressed by the Court, if would be better for the Jury to refer to the Court for further instructions. As to the doubts arising with the Jury in reference to the Excise Law, whether these was now in force any law prohibiting the sale of liquor, the Judge observed that be had already given his opinion, and that was that it is unlawful to sell liquor in any quantities less than five gallons; and should any cases be brought before them, it was their duty, upon proper festimenty, to indict the parties so offending for misdenessior. They were to be the judges of the evidence as to the inext of the sale, but with regard to the law they were to oflow the opinion of the Court without regard to any opinions outside.

TUESDAY, June 12-P. M. The Stock market was strong this morning, without important change in prices. The transactions were to fair extent. At the Second Board there was a very buoyant feeling, with a good demand for the leading Stocks. During the day the Western Railroad Stocks have been in active demand at a considerable advance in prices. Reading, which was dull in the morning, was in demand at the Second Board at 91-an improvement of } ? cent on yesterday's prices. Some of the shorts appeared to be buying in. Eric left off at 48] @ 48]—an improvement of | \$ cent. As we stated yesterday, the earnings for May show a decline, as compared with May, 1855. Hudson River was firm at 39. Central sold at 934. The impendency of 1848 shares of this stock to be sold by the Trustees of the Utica and Schenectady Railroad has a tendency to keep down the market. The Western shares are all advancing. Cleveland and Toledo went to 85-a further advance of 3 P cent. Chicago and Galena, 100%. Chicago and Rock Island, 924-a further advance of 2; P cent. Cleveland, Columbus and Cincinnati, 1081. Southern Michigan, 1031 bid. Illinois Central, 961-an improvement of 1 P cent. Cumberland was firm and rather active, closing at 294. Pennsylvania Coal, 1104. Canton, 264, &c. In Railroad Bonds the principal movement was in Illinois Central, which went to 79}-a further advance of 11 P cent. Eries, 1875, are 891. State Stocks are firm, with sales of \$50,000. Tennessees, 95; Ohio 6s, 1860, 107; Missouri 6s, 941; Louisianas, 924. A small sale of Virginias was made at par, and at private sale \$20,000 sold at the same price.

The Exchange market was heavy, especially for sterling, the supply of outside bills being larger than for some time past. The advices of the rise in the Southern rivers had also some effect in weakening the market. Sterling was held by bankers at 101, but considerable sales were made at 10, and at the close large lines might have been had at that rate. Some bank-bills were offered at the close at 91 P cent. Commercial bills were in good supply at 9 æ 9 ∤ ♀ cent. The market is 1 @ 1 P cent lower than by the previous

steamer. France, 5. 15 @ 5. 19 }. The Freight engagements are to Liverpool, 20,000 bushels Corn, 21 @ 3d.; 2,000 bales Cotton, 3/6 @ 4/. The payments at the Sub-Treasury were \$86,640, including \$12,000 California drafts; received, \$174,721, including \$50,000 silver from the Mint and \$50,000 gold from the West; balance, \$2,425,428. Paid from Assay Office, \$365,912; paid on Disbursing Checks, \$35,214.

The following sales of stocks were made at auction

Adrian H. Muller will hold his regular weekly sale stocks to-morrow, 13th inst., at 124 o'clock, at the

Merchants' Exchange. The Pacific had engaged at 5 o'clock this afternoon about \$1,300,000 in gold, nearly all bars. This may be increased to-morrow to \$1,500,000 which will be less than has generally been anticipated, and a considerable falling off from the shipment by the previous Collins steamer from this port. The estimate has been from \$1,800,000 to \$2,000,000. The shippers are:

The decrease is entirely on the lumber business, in consequence of the burning of the bridge over the Delaware, and the depression of the lumber trade generally. The loss will probably be made up later in the senson.

The following telegraphic dispatch was received

frem St. Louis to-day:

"Proceedings are now being instituted by the city and county of St. Louis, to restrain the negotiation of a note in favor of Page & Bacon, for the sum of a note in layer of Page & Dacon, for the sud of \$1,138,585, dated June 5, 1855, payable five days after date, purporting to be executed by the Onio and Mis-riseign Railroad Company, and to be secured by their deed of trust. The legality and validity of these instruments are denied

The election at the Broadway Bank to-day resulted in the election of the following ticket for Directors: Francis A. Palmer, John Bodine, John S. Harris, Helmus M. Weils, William J. Decker, Thomas Gardiner, Francis P. Schools, George W. Platt, John R. Lawrence, Tunis W. Quick, Christopher Champlin, John S. Roberts, Geo. C. Peters, Francis P. Furnald, Charles Burkhalter, Joseph Rudd, John T. Fisher.

The sales of lands by the Illinois Central Railroad Company this month, up to to-day, amount to 2,000. It has been frequently urged by the opponents of this road as an argument against the probability of sales of this Company's land at their schedule prices that large bodies of Government lands, alternate sections, near the line of the road, were still in market at \$2.50 P acre.

A letter from a gentleman in Washington received to-day sets this matter at rest. He says:

to-day sets this matter at rest. He says:

"I obtained from the Land Onice on Saturday a
statement of the amount of unsold public lands in Illinois. By the last returns the average date of wincwas not more recent than the 1st of April last, from
all the Land Offices except two from which no returns
had been received) it appeared that the whole smount
of unsold lands of all kinds in the State including the
\$2\frac{1}{2}\$ ff acre lands, was 300,000 acres. The opinion at
the office is that now the entire amount in the State
does not exceed 200,000, probably not 250,000 acres." oes not exceed 300,000, probably not 250,000 acres.

It seems that there is only a remnant of some 300,000 acres in the whole State of all kinds of refuse lands

for sale by the Government.

The business of the Clearing-Housewas \$16,250,250. The Cotton market is at a stand in consequence of the rise in the Southern rivers, which it is anticipated will release 200,000 to 300,000 bales if the rivers remain up for three or four weeks. Dispatches are in town announcing a great rise in the Tombigbee and Warrior, and the beginning of a rise in the Arkansas and Red Rivers. Every steamboat in Mobile had gone up country to load Cotton. Receipts of 200,000 bales Cetton would give us ten millions of Exchange, which would have a material effect on the specie shipments. Flour is again 12 c. & bbl. lower, State selling at 89 25 2 89 621. Wheat is down 2 23c. P bush. Corn is steady and in good demand. Pork and Boef without important charge.

The interest due 15th inst. on New-York Central Railroad Bonds and Deot Certificates will be paid by Messrs. Duncan, Sherman & Co.

The Circular of Messrs. Cammann & Co. for the steamer savs:

property of the city, including the aquiculat, is valued at \$2.025,000, beside \$1,450,000 in railroad stocks, par value. The city will in addition issue \$550,000 in favor of railroads. The sinking fund is supported, first, by a payment of \$10,000 a year; secondly, by the product of the sale of \$700,000 worth of lands; thirdly, by the dividends on railroad stock belonging to the city. Taxable property in 1846, \$15,000,000; in 1850, \$29,776,649; in 1855, \$51,223,859. Population in 1845, 63,491; in 1850, 76,860; in 1845, estimated at 115,000.

Sacramento—Of the debt \$285,000 has been contracted for the construction of the aqueduct. A new loan will soon appear, the product of which will be applied to the payment of the loan becoming due July 1, 1855, and to the liquidation of the floating debt. The interest on the debt will amount in 1855 to \$135,698. The ordinary expenses of the city are estimated at \$100,000. Tax on real and personal property amounts o \$160,000, and is to be applied to the payment of the debt. According to the Message of the Mayor the indirect imposts will be sufficient to pay the expenses of the City Government. Population in 1852, 10,000; now much greater. we have no important new feature to notice in the Money market. The supply of capital continues in excess of the demand and have an call can readily be obtained on first-class sections a \$\psi\$ can. The apports of specie for the fartinght to been very large, but they have not ma crially reduced the last two continues of the same for the week ending of lost showed \$\frac{1}{2}\$ to the continue for the week ending of lost showed \$\frac{1}{2}\$ to increase of losts since of but it is \$\frac{2}{2}\$ to \$1.52.
